ANOTHER ATTEMPT TO FREE THAW

New York, June 15.—Harry K. Thaw, the slayer of Stanford White, late yesterday afternoon obtained from Justice Gaynor of the Appellate Division of the Supreme Court, in the latter's chambers in Brooklyn, a writ of habeas corpus with a view to having the question of his sanity at the present time determined. The object is to gain his release from the Matteawan Asylum. The writ was obtained by Charles Morschauer, a lawyer of Poughkeepsie. It is returnable before Justice Mills in the Supreme Court at White Plains on Thursday.

Justice Gaynor's opinion holds that Thaw's commitment to the Matteawan Asylum is illegal; that Section 454 of the Penal Code, under which he is detained, is unconstitutional because of its failure to provide for a hearing on the question of the sanity of the defendant, and also for the reason that it tended to deprive persons of "life, liberty, or property" without due process of law.

Justice Mills, before whom the new writ was returnable, issued a similar writ for Thaw last June, after Justice Morschauer had decided that Thaw was insane and should remain in Matteawan. This writ kept Thaw out of Matteawan for a while, and he spent last summer in the Poughkeepsie Jail, and was transferred to the White Plains Jail in September. In October Justice Mills denied the motion for a writ of habeas corpus, and Thaw was re-committed to Matteawan, where he has since remained.

Subsequently another writ was granted by Justice Tompkins at Nyack, N. Y., but, with District Attorney Jerome's attempt to have the writ denied, it was not heard in New York County without a jury. The proceedings were withdrawn.

Heinze's Lawyer, Robinson, Indicted

New York, June 15.—Sanford Robinson, who has been one of the leading attorneys of the Appellate Division of the Supreme Court, was indicted yesterday afternoon by the Federal Grand Jury on charges of obstructing the administration of justice.

The indictment grew out of the disappearance of Tracy Buckingham, a witness wanted by United States District Attorney Wise, in his investigation before the Federal Grand Jury of the doings of F. A. Heinze in the Mercantile National Bank. Mr. Robinson appeared in court with his counsel, Joseph Cotton, Jr., and pleaded not guilty to the indictment with leave to withdraw for the purpose of making the usual motions. The case went over to Friday.

The indictment came to Robinson like a bolt out of a clear sky. Robinson, who was a Director of the United Copper Company until the recent annual meeting, had, in common with the other Directors of that corporation, to face the charges of contempt of court growing out of the disappearance of the books which Mr. Wise's accountants last saw on May 19. He subsequently got into deeper water by reason of the testimony of George Baglin before the Grand Jury that he (Baglin) heard Robinson and Arthur F. Heinze, a brother of F. A. Heinze, discussing with each other the disappearance of these same books of account.

ROACHES Running Wild

around the house are tolerated only by careless housewives. Some make a faint effort to get rid of them, but persist in using something that is not guaranteed and often useless.

Cyrus Roach Powder exterminates the roaches, is harmless, clean and not poisonous; only 35c per pound.

BOARD OF EDUCATION MEETS

Mr. Wooster Inquires Status of Major Thomas Boudren's Offer of Prize for Best Essay on Horrors of Compulsory Vaccination—Number of Pupils Increased.

The members of the Board of Education at their meeting held last evening extended a vote of thanks to the Misses Grace McGrail, Julia E. Moynihan, Mary A. Strich and Bertha Neuberger, teachers in the Waltersville School for the work they have done in promoting the study of domestic science among the children under their supervision. These four teachers have for months conducted a sewing class after school hours for which they have received no remuneration, being content to do the work for the advancement of their charges.

The graduating Commercial Class of the local High School, through their Secretary, Harold Cotter, submitted a communication to the board stating that the class desired to leave \$100 with the board for the purpose of giving a prize of \$15 for each year until the fund is exhausted for the public making the most marked progress in the commercial studies during the school term. The board accepted the offer.

Supt. Deane recommended, in view of the fact that repairs were being made at the Prospect Street school, that the slate black boards in the building. The sum of \$1,100 will cover the expense of the work. The recommendation was adopted by a majority of the committee on school houses with power to act.

Mr. Wooster of the board inquired as to the disposition of the offer of Major Thomas Boudren of a prize of \$50 to be given to the member of the graduating class delivering the best essay on the horrors of compulsory vaccination, and also of the offer of Prof. Brown of Brown's Business College for a prize for perfect spelling.

Supt. Deane's report for the four weeks ending Friday gave the total registration as 12,609 an increase of 608 pupils over the corresponding period of last year; and the average daily attendance 11,490, an increase of 390 over the daily attendance of the corresponding period of last year.

The matter of no school on Circus day was brought up. The day comes on Friday, June 25, which is also the last day of school. There is never any real school session on that day, the children are sent to receive their reports. In view of the fact that the reports are to be handed out, it was deemed advisable to have the session of the day.

Supt. Deane also announced that the Commencement exercises of the High School would be held at Smith's Theatre, Tuesday evening, June 22; and the exercises of the Training School at Warner's Hall, Thursday evening, June 24. The public teaching exercises at the Normal School will be held on Wednesday of this week. The people of the city are invited to be present.

TERRIFIC BATTLE BETWEEN TURKS AND ALBANIANS

(Special from United Press.)
Salonica, June 15.—Incomplete accounts reached here to-day of a terrific battle between five battalions of Turkish troops under command of Djavad Pasha and a heavy force of Albanians in a pass of the Diakoria Mountains. After a day of fighting the Rebels were beaten back with heavy loss.

Djavad Pasha has sent word that the uprising of the Albanians, who between 10,000 and 20,000 were involved, had been completely crushed. Hundreds of them were captured and the Turkish soldiers were in the area of those who fled after the repulse in the mountains. The Turkish force included two batteries of field artillery which fought the greatest havoc.

Sues For Divorce From Stingy Spouse

Atlanta, June 15.—Misersness that seems impossible is charged against E. Lee Douglass, an Atlanta business man worth \$500,000, in a suit for divorce just filed by his wife, Mrs. Emma Neal Douglass. Mrs. Douglass is a daughter of the late T. B. Neal, one of Atlanta's wealthiest men and is worth \$200,000 in her own right.

The couple were married in 1892 and Mrs. Douglass charges that her husband's saving began even in the honeymoon. He began at once charging her for every meal she ate and forced her to settle every month.

Mrs. Douglass says, for instance, that Douglass never tipped waiters or porters and that she had to do it out of her own means; that he required her to pay the extra expense of every guest who came to the house, which she had to do to obtain before such guests were invited; that he complained if his servants got anything to eat but bread; that he would have only one light in the house at night; that he got a profit of \$5,000 a year from the management of his estate and wanted a salary besides, and so on.

Attached to the petition is a copy of a remarkable declaration which Douglass wanted his wife to sign, to regulate their lives.

One term of the agreement was that if they should quarrel the party who apologized should make a public or private apology and submit to being kissed 100 times. Mrs. Douglass says that she has actually enforced the penalty of 100 kisses against her once and made her sick.

Another clause of the agreement declares: "The enemies of the one shall be treated as the enemies of the other, and the friends likewise as friends of both."

She was never, she says, and her husband's conduct broke down her health until "he became a nightmare, a horrible" specter.

THE THEATRES

POLI'S

"Shore Acres" the great home-drama of James A. Herne, is delighting big houses at Poli's this week. No more complete or realistic portrayal of this magnificent play has ever been given by a resident stock company. The entire company is at its best. John Ince in the role of Nathaniel Berry is splendid, while Miss Patty Allison, as Helen Berry, gives a superb performance. The little Davis, Esposit and Rosindale children, are features of the cast. The staging is elaborate and perfect in every detail. The famous lighthouse scene, and the real turkey and cranberry sauce, silver wedding feast being especially effective.

Poli's is made the most cool and comfortable spot in town by the Poli ice-cooled air process inaugurated with the opening of warmer weather. In addition the auditorium is sprayed with purifying and fragrant perfumes before each performance, combining to make the theatre delightful during the warm summer months.

At the Thursday afternoon performance a souvenir photograph of a popular member of the company will be presented to each lady patron. Saturday afternoon next following the usual performance, a reception will be held on the stage by the Davis and Esposit children who have prominent parts in "Shore Acres". These stage stars, ranging in age from five to ten years will personally greet all their little friends in the audience together with the lady patrons. A handsome souvenir photograph of themselves.

Hoodoo Number 13 Causes Chauffeur Trouble

Greenwich, Conn., June 15.—When Jay Cramer, chauffeur for Ralph B. Peck, who is living on the Quaker Ridge Road here, applied for a license to drive an automobile in Connecticut he received the double hoodoo 1313.

Sunday, the thirteenth day of the month, which also happened to be the thirteenth day from the receipt of the license, he took his car out for a trip to New London, and on the way ran over a black cat and had four tire blowouts. Each blowout caused a delay, and he was trying to make up time in New York when he was "pinched," as he expressed it. He had tire troubles again on his way back.

Cramer says the 13 hoodoo never bothered him much before, although he was born on the thirteenth day of the month and the thirteenth hour of the day—at 1 o'clock. He has asked the Secretary of State of Connecticut to issue another license number to him.

Many of our citizens are drifting towards Bright's Disease by neglecting symptoms of kidney and bladder trouble which Foley's Kidney Remedy will quickly cure. F. B. Brill, local agent.

TO BUILD BARRACKS FOR QUAKE SUFFERERS.

(Special from United Press.)
Paris, June 15.—The minister of war has today authorized to build barracks for the people whose homes were destroyed in the earthquake that Friday night visited Saint Cannat, Rogues, Langes, Aix-en-Provence and other southern French towns. It was officially reported to the government that several hundred persons are now homeless in the quake region and are suffering keenly for want of food and shelter. The government had already sent food supplies to the destitute.

FACTORY INSPECTORS CONVENED IN ROCHESTER.

(Special from United Press.)
Rochester, N. Y., June 15.—The International Association of Factory Inspectors' Convention began to-day with an address of welcome by Mayor Bigerton to which John Williams, the head of the State Department of Labor, made response. James T. Burke, of Toronto, Can., is presiding at today's session. Besides the inspectors themselves there are present many others interested in the problem of child labor and on safety for factory employees.

He—I am told that he has more money than he knows what to do with. He—Has he, really? Such ignorance must be bliss!
